

PRITOM MAJUMDER

[Email](#) | [LinkedIn](#) | [Research Portfolio](#) | [ResearchGate](#) | +880 1859 472796 | Dhaka, Bangladesh

RESEARCH INTEREST

Functional, Piezoelectric Ceramics & Nanomaterials; Materials Characterization; Oxide Semiconductor Thin Films; Photonic & Optoelectronic Materials; Polymer Composites & Nanocomposites; Metallurgy; Failure and Fracture Mechanics; Computational Material Science (DFT).

EDUCATION

B.Sc. in Materials and Metallurgical Engineering

2021 to June 2026

Bangladesh University of Engineering and Technology (BUET), Dhaka

CGPA: 3.64 (15th of 59) / 4.00

Relevant coursework: Advanced Ceramics (A+); Nanostructured Materials & Thin Films (A+); Electrical, Optical and Magnetic Properties of Materials (A+); Characterisation of Materials Laboratory (A+); Corrosion and Degradation of Metals and Alloys (A+); Surface Engineering and Tribology (A+); Photonic and Magnetic Materials (A).

RESEARCH EXPERIENCE

Undergraduate Thesis Researcher · [Ahmed Sharif's Lab](#) · Department of MME, BUET

2025 to 2026

"Investigation of Dielectric and Piezoelectric Properties of KNN with BCHfT Composite Ceramics"; Supervisor: Prof. Ahmed Sharif; [THESIS BOOK & THESIS PPTX](#)

- Synthesized lead-free $K_{0.5}Na_{0.5}NbO_3$ (KNN) ceramics modified with $Ba_{0.85}Ca_{0.15}Hf_{0.1}Ti_{0.9}O_3$ (BCHfT) by the conventional solid-state route.
- Characterized phase evolution and microstructure by XRD and FE-SEM; measured frequency- and temperature-dependent dielectric permittivity and loss, impedance spectroscopy, and the piezoelectric charge coefficient d_{33} .
- Identified KNN-1wt% BCHfT as the optimum composition, giving the best balance of dielectric response.

Undergraduate Researcher · [Solid State Physics Laboratory](#) · Department of Physics, BUET

2024 to 2026

- Synthesis of SnO₂ and Cu:SnO₂ research by hydrothermal process.

Undergraduate Thesis Researcher · [Pilot plant and Process Development Center](#) · BCSIR

2025 to 2026

- Carried out the complete characterization of the KNN-BCHfT thesis series on BCSIR instruments: XRD, SEM, frequency- and temperature-dependent dielectric test.

SELECTED PROJECTS

[Cu-Doped SnO₂ Thin Films](#) · [Solid State Physics Laboratory](#), BUET

2024 to 2026

Hydrothermal growth and defect engineering; Supervisor: Dr. Md. Azizar Rahman; Manuscript in preparation (first author)

- Targeted p-type Cu:SnO₂ for an all-SnO₂ p-n homojunction diode, a route that collaborator-run DFT+U calculations indicated would require the oxygen vacancies to be suppressed.
- Grew undoped and Cu-doped (5, 10 and 15 at%) SnO₂ thin films directly on soda-lime glass by a single-step hydrothermal route at 180 °C, using NaOH and NaCl as growth mediators to tailor the defect chemistry during nucleation.
- Stabilized the metastable orthorhombic (α -PbO₂-type) polymorph at ambient pressure, confirmed by XRD, HRTEM, SAED and EDS. Tracked the doping-driven band gap by UV-Vis.
- Established from I-V and Mott-Schottky analysis of the Cu:SnO₂/ITO junction that Cu doping does not invert the conductivity type (remained n-type).

[Millsorpt - Capstone Design Project](#) · Department of MME, BUET

2025

- Converted ferrous mill scale, a low-value steel-industry waste, into a chemically treated adsorbent (hematite rich iron-oxide) for heavy metal wastewater treatment
- Designed a low-cost bench scale filtration column achieving a high removal of Cu, Cr and Ni from mixed-metal solutions; iron-oxide phases confirmed by XRD, metal removal quantified by AAS and UV-Vis.
- Presented the work to specialists at Abul Khair Steel, BCSIR, the Bangladesh Atomic Energy Commission etc., receiving positive technical feedback.

- Polymer-Matrix Composite for a Car Clutch Disc** · [Materials Testing Laboratory, BUET](#) · Group **2024**
- Designed and fabricated a fiber-reinforced asbestos-epoxy composite replica of a car clutch disc by hand layup
 - Tested the cured composite by tensile, Shore-D hardness, impact and three-point flexural testing, and identified the matrix polymer from its FTIR spectrum.
 - Compared the product with commercial clutch facings.
- 3D PotterBot - CAD Modelling** · SolidWorks **2023**
- Modelled a paste-extrusion ceramic 3D printer as a fully-mated 118 parts assembly; produced photorealistic renders, an exploded-view motion study, and a static Finite Element Analysis of the vertical support rod.

ON GOING WORK

- Pritom Majumder**, Anabil Dey, and Ahmed Sharif. "Advancements in Cold Sintering of Piezoceramics: Flux Mediation, Microstructural Evolution, and Enhanced Dielectric Properties - A Review." (under peer review)
Journal: Emergent Materials.

INDUSTRIAL AND LABORATORY TRAINING

- Bangladesh Council of Scientific and Industrial Research (BCSIR)** · Dhaka **2026**
- Abul Khair Steel Melting Limited (AKSML)** · Chittagong **March 2025**
- Bangladesh Industrial Technical Assistance Centre (BITAC)** · Dhaka **March 2025**

TECHNICAL SKILLS

- Synthesis, Processing and Data Analysis:** Solid-state ceramic synthesis; hydrothermal synthesis; sintering; uniaxial pressing; XRD; FE-SEM and SEM; TEM including HRTEM, SAED; Impedance spectroscopy; frequency- and temperature-dependent dielectric measurement; d₃₃ meter; cyclic voltammetry; I-V and Mott-Schottky analysis; UV-Vis spectroscopy; photoluminescence (PL); FTIR
- Mechanical & Chemical Testing:** Tensile, Charpy impact and three-point flexural testing; Vickers, Rockwell and Brinell hardness; optical emission spectroscopy (OES); gravimetric and wet chemical analysis
- Software:** OriginPro; MATLAB; SolidWorks; ImageJ; X'Pert HighScore; C/C++; MS Office; Adobe Photoshop and Illustrator

AWARDS AND SCHOLARSHIPS

- University Merit Scholarship**, Bangladesh University of Engineering and Technology **(July 2022)**
- University Stipend Scholarship**, Bangladesh University of Engineering and Technology (July 2021 and January 2022)
- Letter of Appreciation**, Abul Khair Steel Melting Limited - for professionalism and work ethic during industrial training **2025**
- Certificate of Perfect Attendance**, Notre Dame College, Dhaka **(2019 to 2020)**

LANGUAGE PROFICIENCY

English: IELTS Academic - Overall Band 7.0 (Listening 7.5, Reading 7.5, Writing 6.0, Speaking 6.5) **2026**

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- Director of Administration**, Executive Committee, BUET Debating Club (BUETDC), 2025-26 :- previously Information Secretary. Organizing panel member for BUETDC Nationals 2024; finalist at the BUET Freshers' Debating Tournament; competed at the Inter-Faculty Tournament 2024 and the 6th GSCDC Nationals 2024.
- Organizer**, Winter Fitness Competition 2025, BUET Gymnasium :- planned and ran the event in collaboration with the resident trainer; Organized Treasure-Hunt competition 2024, as an organizing panel member of "Reception'21"
- Class Representative**, Department of MME, BUET, 2021-22 :- elected by classmates for both semesters of the first year
- Active Member & Blood Donor**, Badhon - a non-profit voluntary blood donation organization, 2022-present
